

Amazon Listing Optimization Checklist

Run through this list before publishing a new listing, or whenever sales or conversion rate start to slip on an existing one.

Title

- ☐ Primary keyword appears within the first 80 characters
- ☐ Brand name, key attribute (size/color/qty/material) and product type included
- ☐ No promotional words (Best, Free, #1, Sale) — these violate Amazon policy
- ☐ Title is readable as a sentence, not a keyword dump
- ☐ Character count checked against category-specific limit

Bullet Points

- ☐ Each bullet leads with a benefit, not just a feature
- ☐ Top 5 customer questions/objections are answered across the 5 bullets
- ☐ Secondary keywords are worked in naturally, not stuffed
- ☐ Sizing, care instructions and what's-in-the-box are covered
 - Especially important for apparel and kitchenware categories.*
- ☐ No duplicate phrases between bullets and title

Images

- ☐ Main image is pure white background, product fills 85%+ of frame
- ☐ At least 5-7 images used: lifestyle, infographic, size chart, close-up, packaging
- ☐ Infographic image communicates 2-3 key selling points visually
- ☐ All images are 1600px+ on the longest side for zoom function
- ☐ Mobile preview checked — first 3 images tested on a phone screen

Backend Search Terms

- ☐ 250-byte field used fully, no repeated words from title/bullets
- ☐ Regional spelling variants and synonyms included
- ☐ No competitor brand names or restricted terms used
- ☐ Misspellings of high-volume search terms added if relevant

A+ Content / Enhanced Brand Content

Amazon Listing Optimization Checklist

- ☐ Brand story module included for trust-building
- ☐ Comparison chart added if selling multiple variants/sizes
- ☐ Mobile rendering checked — text isn't cropped or too small
- ☐ All modules use consistent brand colors and fonts

Pricing & Buy Box

- ☐ Price is competitive against top 3 similar listings
- ☐ Buy Box ownership confirmed (check Suppressed/Featured Offer status)
- ☐ MAP pricing checked if applicable to avoid price wars
- ☐ Coupons/deals reviewed for margin impact before activating

A practical, print-ready checklist for auditing and improving any Amazon listing before you hit save.
